Front-End Developer focused on building **clean, responsive, and high-quality** web interfaces using **HTML, CSS, JavaScript, TypeScript, and React**. Experienced in translating UI/UX designs into scalable, maintainable components, integrating frontend features with backend APIs, and **collaborating across teams**. Proactive and detail-driven, with a solid understanding of **backend fundamentals** that supports building efficient, end-to-end user experiences.

Skills

Front-End: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind, Bootstrap

State Management: Redux Toolkit, Context API

Back-End: Node, MongoDB, REST API, Express

Version control & CI/CD: Git & GitHub, CI/CD pipelines (Github Actions, Vercel)

Education

Bachelor of Computer Science at Mansoura University, Egypt

October 2020 - July 2024

Relevant coursework: OOP, Data Structures, Algorithms, Databases

Experience

Full-Stack Developer | Egyptian Army

January 2025 - December 2025

- Delivered **1 frontend** and **2 full-stack** projects tailored to **user requirements**, now live in **production**, and **actively used**.
- Maintained** and **debugged** about **4 existing projects** with **React.js, Node.js, Next.js, TypeScript, and PHP**, and **deployed** them on a **local network** with basic networking experience.
- Gained hands-on experience with **Docker, backend fundamentals, and offline deployment**, enhancing full-stack and system integration skills.

Front-End Developer | Freelance & Project-Based

June 2023 - September 2023

- Delivered 3–5 responsive **portfolio websites** for individuals and small businesses using **HTML, CSS, JavaScript, and React**.
- Created reusable UI components, deployed projects, managed updates and bug fixes, and maintained code with **Git & GitHub**.

Projects

Graduation Project | Chat Broker

- Built **responsive, user-friendly** web interfaces using **React**, focusing on **performance, cross-browser compatibility, and mobile-first** design.
- Implemented core features including **product listing, cart management, favorites, reviews, and secure user authentication**.
- Developed interactive **chat-based** user flows **integrated with backend logic**.
- Integrated **RESTful APIs** and **collaborated with designers and developers** using Git/GitHub, translating UI/UX designs into **reusable** front-end components through code reviews.

E-Learning Platform

- Developed a **course-based e-learning platform** using **React** with a **reusable and scalable component** architecture.
- Implemented authentication and **protected routes** with **role-based access** (User / Instructor), enabling different permissions and UI flows per role.
- Achieved **dynamic course listings, and video content pages**, integrated through **RESTful APIs**.

Gamer Portfolio

- Developed a **responsive, interactive** website using **HTML, CSS, and vanilla JavaScript**, demonstrating strong front-end fundamentals.
- Applied **clean layouts, interactive UI** behaviors, and **modern CSS** techniques to ensure a smooth experience across **all device sizes**.
